

Ethics Summary Report

Call Reference	H2020-LC-SC3-2019-NZE-RES-CC
Proposal Number	883753
Acronym	IDEALFUEL

Ethics Issues

Third countries

In case non-EU countries are involved, do the research related activities undertaken in these countries raise potential ethics issues?	Yes
Specify the countries involved: Switzerland	
Is it planned to import any material – including personal data – from non-EU countries into the EU?	Yes
Specify material and countries involved Switzerland, Materials (e.g. oligomers) for the fabrication of Crude Lignin Oil (BLOOM), samples of the fuels for testing in its test installations (WinDG)	
Is it planned to export any material – including personal data – from the EU to non-EU countries?	Yes
Specify material and countries involved Switzerland, Materials (e.g. oligomers) for the fabrication of Crude Lignin Oil (BLOOM), samples of the fuels for testing in its test installations (WinDG)	

Environmental protection and safety

Does this research involve the use of elements that may cause harm to the environment, to animals or plants?	Yes
Does this research involve the use of elements that may cause harm to humans, including research staff?	Yes
Comments Processes involved in the main body of the research have the potential to cause damage to research staff and, if not correctly managed, to the environment.	

Ethics recommendations

The applicants are recommended to follow the ethical principles of highest standard (e.g. European Code of Conduct for Research Integrity).

Ethics Opinion

Conditional ethics clearance (i.e. clearance is subject to conditions, i.e. ethics requirements. The requirements must either be fulfilled before grant signature or become part of the grant agreement)

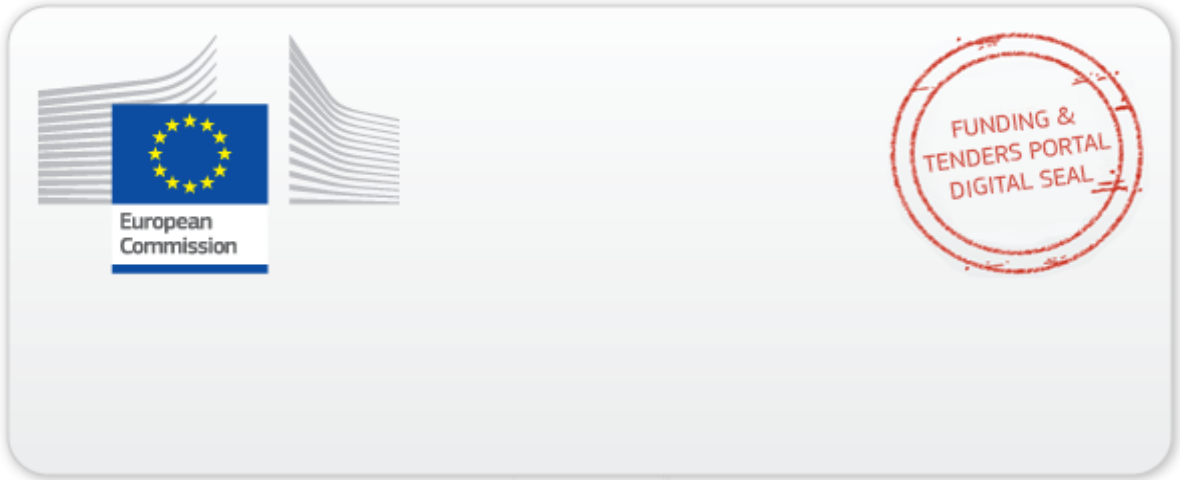

Post-Grant Requirements

Third countries

The applicants must confirm that the copies of import/export authorizations, as required by national/EU legislation will be obtained and will be kept on file.

Third countries

Details on the materials which will be imported to/exported from the EU must be kept on file.
